## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election of Group IV, Claims 10 through 17 in the reply filed on 24 April 2007 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 10 through 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Burkhart (U.S. Patent No. 6,991,402 B2).

Burkhart '402 shows a variety of underground tunnel structures formed from concrete, the structures including a drainage system (8 and 9), an upper portion of the wall using a drain board (the perforated top/roof member ) and a waterproof layer (col. 20, lines 56 through 57), and further including a collection tank and drain pipes.
